VisionDrive Electronics

Automotive camera systems for OEMs and fleets since 2008 | Chennai, Gurugram

Response to: Velocity Fleet Services Ltd — VFS-RFP-2026-008: Supply of 5,000 dual-channel dashcams for the commercial fleet
Submission date: 2026-10-21

1. Executive Summary

VisionDrive Electronics proposes the VD-Pro X2, a dual-channel dashcam engineered for commercial vehicles that run long shifts in Indian road and climate conditions.

2. Product Specifications

Feature	VD-Pro X2
Front camera	4K (3840x2160) at 30 fps, Sony STARVIS 2 sensor
Cabin camera	1080p infrared for night-time driver monitoring
Field of view	140 degrees front, 120 degrees cabin
Storage	Up to 512 GB microSD, loop recording, event lock
Connectivity	4G LTE, Wi-Fi and GPS with live tracking
ADAS	Forward collision and lane departure warnings, driver fatigue alerts

3. Quality and Certifications

Built with automotive-grade components and a supercapacitor instead of a battery, rated for -20 to 70 degrees Celsius operation. The product is certified to AIS-140, BIS, CE and FCC. Our plant is IATF 16949 certified and the field failure rate over the last 24 months was 0.6%.

4. Manufacturing Capacity and Lead Time

Monthly capacity is 12,000 units at our Chennai plant. The first 2,000 units can ship 8 weeks after purchase order, with the balance within 14 weeks.

5. Pricing and Warranty

Item	Amount (INR, excl. GST)
VD-Pro X2 unit price at 5,000 units	11,900
One-time tooling for custom mounting bracket	6,50,000
Extended warranty (years 3-4), per unit	900

Standard warranty is 2 years with advance replacement. Payment terms: 30% advance, 70% on delivery.

6. Data Privacy and Firmware Support

Video is encrypted on the device (AES-256) and in transit. Cloud data is stored in India. Over-the-air firmware updates are provided for 5 years, with security patches within 30 days of a disclosed vulnerability.
