BrightPath Tech

Fast, affordable customer experience software | Founded 2022 | Indore

Response to: Meridian Retail Group (MRG) — MRG-RFP-2026-014: Omnichannel Customer Support Platform
Submission date: 2026-10-08

1. Executive Summary

BrightPath Tech thanks Meridian Retail Group for the opportunity to respond. Our product, BrightDesk, is a modern, lightweight help desk that gets teams live quickly at a fraction of the cost of legacy enterprise suites. We can have MRG's agents working on BrightDesk in 12 weeks.

We understand MRG wants one tool for email, chat, WhatsApp and phone tickets for its contact centre agents, connected to its online store and ERP. BrightDesk already supports most of these channels out of the box.

2. Proposed Solution

BrightDesk is a multi-tenant SaaS application. Key capabilities offered to MRG:

- Shared inbox for email, website chat widget and WhatsApp (via a third-party WhatsApp gateway partner).
- Shopify app available in the Shopify App Store to show order details in the ticket sidebar.
- SAP integration will be built as a custom connector during the project using SAP's standard APIs.
- Voice: agents can log calls manually; native telephony integration is on our 2027 roadmap.
- Macros, canned responses, simple automation rules and dashboards.

The platform is hosted on a leading public cloud provider. Hosting region will be confirmed during onboarding. The system scales automatically with demand.

3. Implementation Approach and Timeline

Our rapid onboarding method takes 12 weeks end to end:

Weeks	Activity
1-2	Kick-off and configuration workshop
3-8	Channel set-up, Shopify app install, SAP connector build
9-10	Testing and agent training (train-the-trainer)
11-12	Go-live for all three centres together

Team: one project manager and two implementation consultants. Additional developers will be assigned for the SAP connector as needed. Migration of historical tickets is not included in this timeline.

4. Commercial Proposal

BrightPath offers highly competitive pricing (INR, excluding GST, three-year term):

Item	Basis	Amount (INR)
Onboarding and configuration	One-time	18,00,000
BrightDesk Pro licences, 350 agents	INR 1,750 per agent per month	2,20,50,000
Standard support	Included	0
Total three-year cost		2,38,50,000

Assumptions: SAP connector effort above 40 person-days will be billed at INR 22,000 per person-day. WhatsApp gateway message charges are billed separately by the gateway partner. Prices valid for 60 days.

5. Security and Compliance

Security is important to BrightPath. We follow industry best practices, including encrypted connections (HTTPS) and password-protected user accounts. Data is backed up daily.

We are currently working towards ISO 27001 certification and expect to begin the audit process next year. A SOC 2 report is not available at this time. We will cooperate with MRG's security questionnaire. DPDP Act requirements will be reviewed with MRG's legal team during onboarding.

6. Support and Experience

Support is available by email and chat from 9:00 to 19:00 IST, Monday to Saturday. We aim to respond to urgent issues within 4 business hours.

BrightPath was founded in 2022 and serves 40+ small and mid-sized businesses. Our largest current deployment is 60 agents at an online electronics retailer. Reference: Zippy Gadgets (60 agents).
