# Orbit Digital

15 years of customer experience delivery | Mumbai, Gurugram, London

**Response to:** Meridian Retail Group (MRG) — MRG-RFP-2026-014: Omnichannel Customer Support Platform
**Submission date:** 2026-10-09

## 1. Executive Summary

Orbit Digital has delivered customer service transformations for leading retailers for over fifteen years. We are excited to partner with Meridian Retail Group to modernise its customer support operations with OrbitCX, our omnichannel engagement platform.

Having implemented contact-centre platforms for 22 retail organisations, we understand the pressures of peak trading, store and online order queries, and the need for agents to resolve issues in a single interaction.

## 2. Proposed Solution

OrbitCX provides email, chat, social and WhatsApp channels in one agent desktop, with workflow automation, knowledge management and reporting. Voice is supported through our telephony partners.

Integration approach: OrbitCX has an integration framework that can connect to most enterprise systems. Integrations with MRG's ERP, e-commerce platform and telephony will be analysed and scoped during the discovery phase, and the detailed design will be finalised then. We expect to reuse patterns from previous retail projects where possible.

Hosting will be on a cloud platform in India selected together with MRG.

## 3. Implementation Approach and Timeline

Orbit uses its proven OrbitPath methodology. The indicative timeline is approximately 26 weeks, subject to confirmation after discovery:

| Stage | Indicative duration |
|---|---|
| Discovery and integration scoping | 6-8 weeks |
| Configuration and integration build | 10-12 weeks |
| Testing and training | 4 weeks |
| Go-live and stabilisation | 2-4 weeks |

Team: an engagement manager, a delivery lead and a pool of consultants and developers allocated by phase. Detailed staffing will be shared after discovery.

## 4. Commercial Proposal

| Item | Basis | Amount (INR, excl. GST) |
|---|---|---|
| Discovery phase | Fixed | 15,00,000 |
| Implementation (estimate) | Time and materials | 75,00,000 |
| OrbitCX licences, 350 agents | INR 2,400 per agent per month | 3,02,40,000 |
| Annual support | INR 10,00,000 per year x 3 | 30,00,000 |
| Estimated three-year total | | 4,22,40,000 |

Assumptions: implementation is estimated on a time-and-materials basis and will be re-baselined after discovery once integrations are scoped; telephony partner licences are not included.

## 5. Security and Compliance

Orbit Digital holds ISO/IEC 27001 certification. OrbitCX supports single sign-on, role-based access and data encryption. We comply with applicable Indian data protection laws, including the DPDP Act, and will complete MRG's security assessment during contracting.

## 6. Support, Experience and References

Support: 24x7 for P1 incidents (1-hour response) and business-hours support for other priorities, delivered from our Gurugram service centre.

Experience: 15 years in customer experience, 22 retail contact-centre implementations, and 3,000+ agents currently supported on OrbitCX. Client references (contacts available on request):

- Shree Hypermarkets (retail, 600 agents) - OrbitCX since 2019, renewed twice.
- Lotus Apparel Group (retail, 320 agents) - multi-country rollout, 2022.
- GreenLeaf Pharmacy Chain (240 agents) - omnichannel rollout, 2023.
- Metro Furnishings (150 agents) - migration from legacy CRM, 2025.
